This is The Player Menu for you Items!

You can Place Items on your Belt and use them on the Go! The Most Items can only be used from you belt rather than from your Main Menu.

Skills are limited to having 4 memorize per character as well as up to 4 active. Most Skills can be learned through Books or Leveling in a specific Class.

Area and Space Damage is used with most Weapon, Skills and some Items (Bomb, boomerang etc.). 1 Space Mean you can't do much damage but to yourself. 2 Spaces in front of you (if the Item, Weapon or Skill does self-Damage like a Bomb) and one space in front of you and so on. Area Damage is all around you. 2 Spaces would be every Space directly around you.
